## Key Skills

---

- **Coding Platforms** - Leetcode [↗](#), HackerRank [↗](#)
- **Programming Languages** - C/C++, JavaScript, Python, Java, SQL
- **Tools & Platforms** - Git, GitHub, VS Code, Linux
- **Frameworks & Libraries** - Flask, React.js, Node.js, MongoDB, Tailwind CSS, Sass, Material UI

## Education

---

**B. Tech CSE, Manipal University Jaipur**

09/2022 – 07/2026

- GPA (till 5th semester) - **8.65**
- **9.12** GPA in 5th semester - Dean's List
- Data Structures and Algorithms (A), Object Oriented Programming (A), DBMS (A), Theory of Computation (A), Operating System (B)

## Projects

---

### Zerodha Clone [↗](#)

- Developed a scalable web application, focusing on streamlining client services and improving customer engagement.
- Utilized React.js and Tailwind CSS for a dynamic, responsive front-end design, enhancing user experience and application performance.

### Online Conference System [↗](#)

- Developed a highly scalable and secure web application for Zoom, enabling seamless video conferencing and collaboration across diverse platforms.
- Utilized React.js and Tailwind CSS for the front-end, ensuring a smooth user experience with optimized performance.

### Student Management System [↗](#)

- Developed a Student Management System to streamline academic administration and student data management.
- Utilized Tinker for frontend development, providing an intuitive and user-friendly interface for both students and administrators.
- Implemented key features:
  - Student enrollment
  - Grade tracking
  - Attendance management
  - Course scheduling
- Ensured a responsive design, optimizing the system for use across various devices.
- Integrated secure access for different user roles, including students, teachers, and admin staff.

## Certificates

---

- SQL: A Practical Introduction for Querying Databases [↗](#)
- Server side JavaScript with Node.js [↗](#)
